Specialty Construction

HDPE protective liners provide concrete protection from mechanical damage, corrosive and erosive environments in a wide range of industrial, municipal and civil applications, such as concrete storage tank protection. Concrete protective liners are manufactured in thicknesses of 2.0mm, 3.0mm and 5.0mm. US FUSION also offers other HDPE Embed products from various manufacturers ranging from 2.0mm to 12.0mm thicknesses. Advantages of HDPE concrete embed liners include:

- ★ **MINIMAL LATERAL MOVEMENT**
- ★ **OUTSTANDING RESISTANCE TO UV DEGRADATION**
- ★ **COST EFFECTIVE COMPARED TO OTHER CONCRETE PROTECTIVE SYSTEMS**
- ★ **PREFABRICATION CAPABILITIES**

US FUSION also provides and installs PVDF, Polypropylene & PVC concrete protective liners.

US FUSION & Specialty Construction delivers **consistent, high quality** results. Contact us today to discuss the best solution for your next project.
